

# SUMMER BREAK @HOME

with your Library

## Adventure! Grades 3 - 5

This kit will help you build your own adventure while learning some new things along the way!

The kit includes:

- The book: “The Season of Styx Malone” by Kekla Magoon
- Compass

Use the book to inspire you to discover your neighborhood like the brothers and Styx do! Two videos on the Ramsey County Library website will help you build your map: one on how to use a compass and one on how to build your map!

When you have learned how to make a map of a real place, create a map of an imaginary place you would love to visit. You may find it easier to make your map by writing down what a perfect vacation location would be like for you right now. Or a great adventure! Any world you would like to create. If you need some inspiration for details, think of:

- Scenery—mountains, rivers, oceans, deserts, forests
- Shelter
- Food sources
- Entertainment

If you want to share your map with the library, ask an adult to share your imaginary map on social media with the hashtag **#RCLReadMakeDo**
